REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over prior art of record, because the applicant amended claims 1, 12, and 17 comprising the underlined limitations below, which does not disclose in the Mihich (4,953,932) reference.

The applicant amended claim 1, comprising the limitation "a coupling structure extending within both of said annular members to maintain said annular members longitudinally aligned with said longitudinal axis".

The applicant amended claim 12, comprising the limitation "a shaft for extending through both of said annular members for maintaining both of said annular members aligned along a common longitudinal axis".

The applicant amended claim 17, comprising the limitation "using a shaft disposed within said optical bundles, and aligned with common longitudinal axis of rotation of said optical bundles to maintain said optical bundles concentrically aligned with one another during rotation of at least one of the optical bundles".

The Iverson (4,027,945) reference discloses an optical slip rings, which permit signals to be transferred from a rotating body (10) to a non-rotating body without any physical contact. The Iverson reference does not disclose one of above underlined limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
